## OVERVIEW

🚧 As an engineer, I am highly valued for my ability to create exceptional, high-performance web experiences that prioritize accessibility. My focus is on designing and developing products that exhibit top-notch quality, user-friendlies, and scalability, regardless of the technology stack used. I consistently strive to deliver outstanding digital solutions that meet the needs of users and exceed their expectations. With my expertise in web development, I ensure that every product I work on delivers a seamless and engaging experience for all users.

## TECHNICAL SKILLS

- 🚧 Language: Javascript, Typescript, Python, HTML, Css.
- 🚧 Frameworks: React, NextJs
- 🚧 Database: mongodb, Sql, PostgreSQL, PlanetScale.
- 🚧 Tools: Redux-tool-kit, Zutsand, Prisma, Next-auth, Clerk, Git, Github, Figma, Material-ui, Reack-hook-form, Jest, Formik, Framer-motion.
